Operating Protocol - Neoon Space

Overview

CLOSR manages Neoon Space's digital presence and marketing activities to build awareness of the venue and its experiences, attract new visitors, strengthen customer loyalty and grow bookings and sales.

Included services

- Six-month content planning and monthly content preparation.
- Instagram and Facebook: 12 content pieces per month - 3 videos and 9 photo posts.
- TikTok: publication of the same 3 videos.
- Daily stories, including weekends.
- Monthly 3-hour photography and video shoot, with models as required by the plan.
- Website content maintenance and SEO.
- Meta Ads and TikTok Ads management.
- Customer email support and email marketing campaigns through Wix.
- Monthly reporting, with quarterly SEO results.

Working hours and contact

- Business days, excluding public holidays: 09:00-13:00 and 14:00-18:00, mainland Portugal time.
- CLOSR contact: Daniel Fernandes | +351 933 946 373.

Customer email support follows the schedule in section 5. Scheduled content may be published outside working hours.

External costs and additional requests

Neoon Space covers advertising spend, Wix subscriptions, and other tool subscriptions and additional production expenses agreed in advance.

Out-of-scope requests are assessed and agreed by both parties before work begins.

This document contains confidential information belonging to CLOSR. Disclosure to third parties is not authorised.

1 - Planning and social media

Planning and approval

- A six-month plan is sent in January and July, organised by month and key dates, and implemented following Neoon Space's approval.
- Priorities are confirmed and scripts approved by Neoon Space before each shoot.
- Priority requests, discounts or promotions may require changes to content and shoots.

Neoon Space provides the necessary information and updates. Delayed approval may require changes to the shoot and schedule; no response does not constitute approval.

Monthly posts

- Instagram and Facebook: 12 content pieces adapted to the platforms - 3 videos and 9 photo posts.
- TikTok: the same 3 videos, adapted to the platform.
- Posts are generally published every two to three days.

CLOSR handles copywriting, preparation, editing and publishing. The approved plan guides content and its alignment with the website, advertising and email marketing.

Stories

Published daily, including weekends, to:

- Promote offers and showcase the venue's experiences and atmosphere.
- Direct people to the website and encourage bookings, using calls to action and links where applicable.

Weekend stories and posts are prepared during the week and scheduled for automatic publication.

Community management

CLOSR replies to social media comments on business days, excluding public holidays, and forwards complaints requiring a decision or clarification to Neoon Space.

This document contains confidential information belonging to CLOSR. Disclosure to third parties is not authorised.

2 - Video and photography

Monthly shoot

- A 3-hour photography and video shoot, at an agreed date and time.
- One or more models arranged by CLOSR, according to the plan.
- Footage and photos for the 3 monthly videos, photo posts and stories.

Preparation

CLOSR prepares scripts and shot plans, coordinates the team and models, and communicates requirements to Neoon Space.

Neoon Space may be asked to prepare the venue and provide accessories, props or materials. Any costs are agreed in advance.

Shooting and rescheduling

- Delays or last-minute changes may require adjustments to planned content.
- Rescheduling requests are communicated in advance and depend on the availability of both parties, the team and models.
- Where possible, shoots are rescheduled within the same month. If a shoot cannot take place because Neoon Space is unavailable, carrying it over to the following month requires agreement.

Images of people are captured and published with the necessary permissions. Rescheduling may affect the publishing calendar.

Editing and publishing

CLOSR selects, edits and adapts content for publication on the managed channels. Planning, editing and publishing take place outside the 3-hour shoot.

This document contains confidential information belonging to CLOSR. Disclosure to third parties is not authorised.

3 - Website maintenance and SEO

Website maintenance

- Functionality checks every business day, excluding public holidays.
- Updates to copy, images, promotions and activity information.
- Alignment with campaigns and content optimisation to support enquiries and bookings.
- Updates to existing Wix booking settings, forms and automated emails, including activity details, prices and availability.

Includes updates to existing content, without creating or redesigning pages. Requests are prioritised accordingly.

SEO

Weekly assessment and quarterly reporting of results, including:

- Performance analysis and opportunities.
- Review of page content and structure.
- Optimisation for searches relevant to the venue and its activities.

Request response and completion

- First response: on the same business day for requests received during working hours; otherwise, on the next business day.
- Completion: within 3 business days of receiving the necessary information, for routine changes within scope.
- Paused timelines: while awaiting information, access, approvals or action from platforms; the clock resumes once the dependency is resolved.
- Delays: CLOSR communicates the reason and a revised completion estimate.
- Priority: issues preventing bookings or the website from functioning.

These timelines apply to Neoon Space’s operational requests. Posts, shoots and campaigns follow the agreed schedule.

4 - Meta Ads and TikTok Ads

Strategy and management

CLOSR manages campaigns to promote Neoon Space's experiences and generate qualified traffic, enquiries and bookings.

- Campaign objectives, audiences and remarketing, where applicable.
- Ad creatives, copy and calls to action.
- Alignment with promotions and landing pages.
- Checks of tracking pixels, conversion events and tracking parameters in campaign links.

Analysis and optimisation

Analysis every business day, excluding public holidays, covering:

- Spend, reach and frequency.
- CTR (click-through rate), CPC (cost per click) and website visits.
- Conversions and cost per result, where measurable.
- Audience and creative performance.

Adjustments follow results and available data, taking account of the learning phase and agreed budget. Changes to total spend are agreed with Neoon Space in advance.

Advertising funding and reporting

CLOSR sends payment references on the first business day of each month. Funds should be available before the 5th to maintain campaign continuity. Late funding may affect performance, even if the total budget remains unchanged.

Reporting normally runs from the 5th to the 5th. If funding is delayed, the advertising reporting period may shift accordingly - for example, from the 10th to the 10th following a five-day delay. The standard cycle resumes the following month.

This document contains confidential information belonging to CLOSR. Disclosure to third parties is not authorised.

5 - Email support and monthly reporting

Customer email support

The schedule totals 5 hours in a full working week. Sessions falling on public holidays are not held.

- Monday: 1 hour in the morning and 1 hour in the afternoon.
- Wednesday: 30 minutes in the morning and 30 minutes in the afternoon.
- Friday: 1 hour in the morning and 1 hour in the afternoon.

Sessions take place within 09:00-11:00 and 16:00-18:00. Exact times may vary; these windows do not represent continuous support.

Messages are handled by priority and arrival order within the available time, using up-to-date information from Neoon Space. Outstanding messages carry over to the next session; requests requiring decisions or clarification are referred to the relevant Neoon Space contact.

Email marketing through Wix

One monthly campaign promoting priority offers and experiences, with the same email sent to all eligible website subscribers. Includes copywriting, visual preparation, calls to action and sending.

Monthly report

Delivered by the 10th of each month, covering performance for the relevant reporting period, work completed and next steps, using available data on:

- Instagram, Facebook and TikTok.
- Meta Ads and TikTok Ads.
- Website traffic, bookings and sales.
- Posts, stories, customer support and email marketing.

Results are assessed using available platform and business data, distinguishing measured figures from estimates.

Advertising reporting follows section 4; if delayed funding shifts the reporting period, that section is delivered after the period closes, while the remaining report keeps the usual deadline.

SEO results are presented in January, April, July and October.
